**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I oppose the petition to dismantle key components of the 1996 Telecommunications Act. An open market would lead to more competitive pricing and better customer service. Everything has been done accurately according to the Act. The current providers are on the verge of monopolization over the market as it stands. Opening this area to more competition will lower rates and provide more jobs while improving upon the services provided
