**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I feel that stopping competition in the broadband market place would be detrimental to the majority of people in this country because it would allow larger providers to jack up the prices of the service , squeezing the small providers out of business Limiting the choices for the public and further enriching the larger corporations But thats what this administration does best Not giving a shit about the general public and catering to whom ever spends the most money lobbying politicians and lining their pockets All while destroying the fabric of this nation which is small business and a fair playing field for all

So I hope that you will think about what is best for the country and not what is best for the large companies that only care about their bottom lines.

Dave Bellegarde
