**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I signed up for our local internet provider when the Comcast tech told me the reason my internet was slow was bcz I didn't have the new band with less people on it. I asked to get one and he said I didn't qualify. I immediately reached out to our new provider, Sonic.

Sonic is great, high speed, local and responsive. Don't take us back to the monopolistic cable provider model. Allow open competition, free market enterprise.

If you truly are regulating to support everyday Americans, you won't allow the dismantling of key components of the 1996 Telecommunications Act as proposed by USTelecom.

Support your local communities, support the internet itself! Reject the USTelecom petition immediately!

Please,

Jeanne Gibson
