**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Please keep competition available! We don't need more monopolies in utility services. These are services which are critical in today's modern society to maintain small business and independent contractors survival. I am an independent contractor with a home recording studio. The internet is how I run my business, by sending and receiving Audio/video files from around the world, and maintaining communications with clients.

It also is necessary for families and students across the country to have affordable internet access. USTelecom and ATT claims are false in their petition to dismantle key components of the 1996 Telecommunications Act.

Thanks,

David Molina
