**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Im one of the customers with Sonic. Their pricing is a lot cheaper then Comcast Xfinity and AT&T, their WiFi is a lot better than the competitors. Comcast would give us a two year pricing and the price kept on rising after the 3rd month. Every month we almost paid \$260 to \$400 hundred dollars a month. I can barely support my kids. I need the cheap Wifi because school requirements to complete their homework and to do researches. I know that anyone who works for FCC make really good money and everyone can afford more than a medium family. I cant even take my kids to any vacations due to very limited funding.

Also, Comcast would slow our internet down all the time. I had to contact them for repairs 5-7 times a year and if you dont have extended service, they would charge you because they have the control to slow down or mess up your services. As for AT&T it is way too expensive.

Please do not make our lives harder than it is right now.

Everything is rising. I already cut down in buying food, not going on vacations, not to buy certain things. If everyone cut like us. The economy will go down and there will be inflations. 20 years ago, we make so little money but everything was so affordable and we can spend more. Now a days the money maybe more but the costs are so high that we do not have money for better life. It is so stressful as it is already. If no one have a job. The rich will have no money too. Automations already eliminate certain jobs already and certain mom and pops store are slowly being eliminated. My entire families are scattering money to pay bills. PG&E, garbage companies, PUC, etc., all managements want money for themselves. USA is a socialist country now. It used to be a great country.

Please do not be the same and getting bought out by the big corporations. You are hired to fight for people, please do so. Thank you for your understanding in life.

Best Regards,

Frank Chu
