**Re: In the Matter of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I want access to a competitive provider so that I can pay half the price for 10x the speed.

Access to affordable high speed internet supports the economy. High priced slow internet disadvantages the poor disproportionately, furthering the income inequality problem. Our country is better when all have the opportunity to have access for education, to apply for jobs, do basic commerce which is increasingly internet based.
