**Re: In the Matter of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

For years in my area, my family has had to settle for really poor internet service. We were forced to use Comcast because it was the only provider in my area that could supply even mediocre speeds. At one point, they were the best DSL option but as time went on they refused to upgrade our networks despite living in a populated area just outside NYC in NJ. After years and years of terrible, high priced service Comcast finally decided to upgrade the options in my area ONLY as a response to Verizon making a move to provide Fios internet. I'm a software engineer and entrepreneur and this is an untenable situation. It is paramount that ISPs are allowed to flourish and compete.
