**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

For years, I used Comcast for cable subscriptions. There was no choice- it was Comcast cable or else. Comcast service was inefficient and unresponsive. Prices went up, and service declined.

I also had ATT telephone services, a company which has also seen price increases and declining service.

At this time, I have internet and phone service through Sonic, a company I am very happy with because the price is fair, and the service is excellent. When I call the company, (which I have rarely had to do) they are professional and resolve any issues quickly. They also call me back if necessary- something the larger companies do not seem to feel is required.

Now, I want better services through Sonic, but I understand they are limited by ATT to what services they can provide. This limits my productivity, and my ability to work from my home.

I believe we need broadband competition- and it is the only fair way for the consumer to be able to choose.
