**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I am a consumer who supports broadband competition.

I have fiber today but was previously connected with DSL.

A competitive market ensures that consumers will have access to better prices. Incumbent carriers want to change that, and limit access to choose the best possible service at the best possible price. This also means small carriers would be limited in their ability to deploy more fiber; essentially, they would be hindered from providing our customers with the most innovative services out there.
