**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I live in the Outer Sunset district in San Francisco. I chose Sonic.net because they provide high speed internet access at a very affordable price. It is critical for our home needs, for my freelance business, and for my son's full-time college coursework. Sonic.net is a very competitive company. I DO NOT agree to the price hikes that will result if there is less broadband competition.

US Telecom falsely claims that there are no residential subscribers. I am one, and there are many others like me in my neighborhood. Sonic uses unbundled copper and inter-city fiber transport elements (UNEs) to compete in the residential marketplace. We need continued competition, not less.

Thank you for listening,

Phillip Bryan
