**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I am writing you as a concerned citizen. It is imperative that broadband competition be allowed. I personally have suffered through years and years of the monopoly of Comcast and ATT and have finally had the opportunity to switch to Sonic fiber, which has been wonderful.

There is no way that I would ever want to be forced to go back to having a limit of one or two broadband providers to pick from for service. That is not acceptable when there are other providers available.

Healthy competition between providers will ensure better service, more competitive offerings, and increased technology, as each provider strives to out-do the other and gain more customers. Limiting competition will only result in bad customer service and higher prices for the consumer.

Debra Hill
