**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I will not be able to use the internet if my only choice is AT&T or Comcast. I am a Senior Citizen living on Social Security, and I currently use a local broadband provider that charges less for their excellent service. I can reach them anytime over the phone if I have a problem, or even go to their office a few miles away, and their technicians solve my problem right away, and in fluent English, unlike with AT&T where you speak to someone in India. I do not believe AT&T nor Comcast provide competitive rates nor service; they are monopolies. I thought the FCC was trying to prevent monopolies? I'd appreciate it if you would not ruin a good thing; we need more competition.
