**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I am a residential subscriber to Sonic's broadband service for over a year. Sonic's broadband internet is 100x faster than Comcast's internet service, which is the only other provider, for the same price.

Sonic is a small business. Despite its small size, it's driving innovation, providing fast customer service and incredibly fast broadband internet. It needs a leveled playing field to survive and FCC's protection to thrive.

The US is years behind other countries in broadband. Having a small player like Sonic that's able to compete with the big telecoms will drive faster innovation within the big telecoms. What's the point of buying a 5k TV if it keeps buffering?
