**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I have been using Sonic.net with a fiber connection since it was first available. This is a faster, more reliable and also LESS expensive than any solution offered by Comcast or AT&T. I happily switched from Comcast and this has been a cost-savings effective solution for my home.

I have tried DSL and cable over the years, but I now have the best solution available based on cost, speed and uninterrupted service.

With regards to my business I am anxiously waiting for better service such as Sonic. Comcast does not service my area. AT&T DSL is not effective. So I now use an expensive wireless network with hardware on the roof of my building. Can't wait to get Sonic broadband at my office.

Please do not ruin this service for me and my community.

Thanks

Gary Levenberg
