**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Dont allow monopolies to control the internet. In order to grow and service the community it needs to be an open and competitive market place

The USA is based upon free market theory and that will change if we constantly allow large corporations to capture the market and then it is inevitable that they will price hike once they have control. The people need to be the ones who control the future on the internet.
