**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

You already messed up and killer internet privacy, please dont screw up a second time and kill my internet service provider. I left the telecoms because their service was slow and horrid. The price they commanded for this poor device was exorbitant. I switched to a regional in the Bay Area of CA who uses my inter-city fiber optic network, which the telecom (AT&T) was too cheap to rent from the city. My regional provider; Sonic, has been FANTASTIC!!! My internet connection is beyond anything any of the telecoms offer for the price and my phone is included. For the internet speed given by my regional I would have to pay over four times as much. This is obscene as Im not a millionaire and am working 50+ hours a week just to keep food on the table and a roof over my head that provides shelter when Im using the internet. If you believe the telecoms and pass this then Ill be stuck back in the 1980s with no internet or speeds slightly better than a 56k modem as I wont be able to afford what the telecoms want to charge me for the speed Ive grown accustomed to with my regional.

Please dont screw this up!!!!
