Deployment by Removing Barriers to Infrastructure Investment*, WC Dkt. No. 17-

Dear Ms. Dortch:

On June 14, 2018, Christine Crowe and Craig Gilmore of Wilkinson Barker Knauer, LLP, and the undersigned, all representing T-Mobile USA, Inc. (“T-Mobile”), met with representatives of the Wireless Telecommunications Bureau (“WTB”), the Office of General Counsel (“OGC”) and the Wireline Competition Bureau (“WCB”) to discuss actions the Commission should take to expedite the deployment of new network infrastructure and deliver on the promise of 5G. A complete list of WTB/OGC/WCB participants is attached to this letter.

Consistent with our filings in these proceedings,<sup>1</sup> T-Mobile urged the Commission to accelerate its Section 332 shot clocks and adopt a deemed granted remedy for shot clock violations. We further urged the Commission to ensure that fees charged by state and local governments are cost-based, nondiscriminatory, and publicly available; declare that a requirement that all wireless radio facilities be located underground is an effective prohibition of service; and clarify that while siting authorities may consider aesthetic issues, they must do so pursuant to published, objective standards that are applied on a nondiscriminatory basis.
