**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I am a residential customer of a competitive provider.

DO NOT allow price hikes !! That will increase the cost of internet and telephone services in my area. It is expensive enough. Allow MORE competition.

Without broadband in my home, I can NOT participate in the community of the internet. It would hinder my business.

I have competitive DSL, and hope someday to get fiber. DSL is an essential service to our community. It is how I get my news and all my connection to the internet.

I still have a landline number for my telephone. It was critical in the power outages.

In our rural community local broadband providers are critical. Cable operators usually are the ONLY source and provide terrible service poor choices and charge way too much for censored chosen content.

My DSL line lets me choose. Liberty is about choice. Free enterprise is about choice. America is about choice.

DO NOT change the 1996 Communications act to limit my choice or competitive providers.
