**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I would like to first say, freedom of choice is what makes America great! You choose the grocery store you want to go to, you choose the car you want to drive, you choose the brands you want to buy. The more choices the consumer has, makes a more healthy economy. Previously, we only had 2 choices for internet, At&t and Comcast for internet. They're not cheap and for the price/performance you pay for. Compare 100 dollars for 25mbps to 80 dollars for 1000mbps. But with more choices like Sonic, the consumer benefits from lower pricing and better services. In this day and age of the internet, the consumers need a cheaper cost to access the information the internet has to offer. Let's move forward. Thank you for your time.
