**Re: In the Matter of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Being a consumer and user of internet, competition is good to us. This promotes better product by stimulating competitive reduce cost and product innovations which benefits us. I am a small residential/business owner burden with so much bills and nowadays to survive, I go to a market that gives a big bang to my hard -earned cash. Competition promotes Americanism at its' best. Look at all the products and services around us. As an example, USPS now is force to give better service to the public due to competition from FedEx, UPS, DHL, and others.

Hear the majority!

Thank you,

Fernanda Bartolome
