**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I live in San Francisco and have chosen to use SONIC as my RESIDENTIAL provider. I absolutely REFUSE to use ATT or Comcast due to their horrible customer service and outrageous rates. SONIC offers me a decent price for BOTH my internet and land line telephone using the copper wires as SONIC expands their fiber footing in our city.

I prefer to use SONIC as they are a local company, has given me superior service to any other provider, and are cost effective for me as a low income individual.

I am TOTALLY against any changes made by FCC that would limit the competition and smaller companies as a choice for Broadband access.

USTelecom etc. is lying if they say there are no other companies offering residential service that use unbundled copper and fiber options.

Please do not dismantle 1996 Telecommunications Act and make the little competition we have today even worse.

Kim OConnor
