**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

My family depends on affordable, reliable, high quality internet access in our home. My children use it to complete their schoolwork. I use it to enable me to keep up with the office while being there for my family. And most importantly, my wife operates her small business from our home which completely depends on access to the internet for income. For 15 years we have gotten this from our small internet service provider, Sonic.net. In that time we have had very few outages, reliable speeds and very responsive technical support. It is an incredible contrast to the poor, overpriced service we got from AT&T and Comcast in the years prior. Please dont change the rules to push them out of the internet market.
