**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

AT&T provided terrible internet service at exorbitant prices. We need high speed bandwidth, e.g. fiber, for our work and AT&T provides this only in crippled condition and at extreme prices. Their telephone charges for overseas calls are also price gouging. For this reason we have selected Sonic and have been extremely happy with their service. Unlike the huge companies like AT&T and Verizon, their business model is to provide value to their customers, not to squeeze every last penny out of them.

It is essential that you allow companies like Sonic to continue to provide service which requires UNE services. Please don't give in to the customer unfriendly monopolistic large telcos. Please ensure a competitive market place for internet access.
