**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I want to maintain the competitive marketplace that enables me to select from as many carriers as possible. I'm a residential customer for internet and wireless services.

I've had a number problems over years with carriers who have changed their access or infrastructure, to detriment of the service or signal. I've thus had to change carriers or ISPs to make up for the lack of coverage or speed I need to do business from home.

For this reason, I need as many options as possible, and at a competitive price. I currently have a local ISP and their service has been consistently good and reasonably-priced. Not true of the major carriers in my area.

Don't deregulate. Retain the 1996 Telecommunications Act in current form. Don't remove key provisions that reduce access of non-incumbent carriers to our public infrastructure.
