**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

There are few options where I live for fairly priced, high-speed internet. We currently use a provider that uses the UNEs already in the city, and they are the most consistent, reliable, and best service for the price.

Previously, using both AT&T and Comcast, I have experienced intermittent outages, shoddy customer service, inconsistencies in pricing, intermittent price gouging, and most importantly, extremely unreliable internet, making home office use almost unbearable.

Please continue to allow out small carrier to provide residential clients with the access to the UNEs, as this is by far the best thing to happen for internet for our community thus far.

Ben Tse
