**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I am a Sonic internet customer. I chose to use DSL with POTS service from a competitive carrier because the alternatives from the major carriers were too expensive or used less reliable technology. It is important to me that DSL service remains available and does not increase in price. Even though I live in a suburban area of a major city, I do not have any choices for residential internet service over fiber. The major carriers are expected to only expand service over wireless 5G which is an inferior technology for residential service. We need local competitive providers on our community and across the country.
