**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Until this year I have been paying high prices for a very slow internet connection. Now a small company has installed fiber in our neighborhood, giving so a 300 times faster connection for less money. I havent mistyped that, yes our connection is now 300X faster!

For the past 25 years as the internet has been developing the largest communication companies have not done a very good job supplying the public with cheap high quality internet. Smaller companies are now giving much more value for our dollar.

The FCC must not allow internet competition to die. Large and small communities across the country are only now seeing what true competition can bring to our lives.
