**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Hi,

I chose a smaller provider, Sonic, because the rates were more realistic. I could pay for a service at rate that was transparent and reasonable. The larger providers were constantly running expiring discounts and using practices that were design to lure or confuse consumers.

The cost per bandwidth continues to go down so why should the prices go up? I run a small business from my home and also work remotely often. It's imperative that I have competitive, reliable internet.

I still use DSL and the speed important to me.

Thanks,

Alex Tam
