**Re: WC Docket No. 17-192, CC Docket No. 95-155 – REPLY COMMENT FOR
AUCTION OF TOLL FREE NUMBERS IN THE 833 CODE**

Dear Chairman Pai,

I know the comment period from a couple weeks ago is closed but this is still pending and relevant to this process so I wanted to post an update and explain the issues related to the bid protest filed recently to prevent the FCC from awarding a multi-million dollar contract to administer the auction without any competitive bidding. I've attached my June 12th response to the FCC's request to dismiss my protest. Bid protests are behind a login process and harder for most people to see so I wanted to share it here. It shows the issues which I think other people in the industry really need to take a look at and think about as well.

I confirmed with the FCC attorneys that I was free to share this, and they declined to discuss it, preferring to wait for the GAO protest decision. There are several very significant issues that really do need to be addressed and I hope that the GAO chooses transparency and openness over the industry insiders.

Very sincerely,

A handwritten signature in black ink that reads "Bill Quimby". The signature is written in a cursive, flowing style. Below the signature, the name "Bill Quimby" and his title "President of TollFreeNumbers.com" are printed in a standard sans-serif font.
