**Re: WIIZ(FM), Blackville, SC (Facility ID No. 15307)
 Request for Extension of Waiver of Online Public File
 Requirement**

Dear Ms. Dortch:

Nicwild Communications, Inc. ("Nicwild"), licensee of the above-referenced FM broadcast station (the "Station"), hereby requests a sixty-day extension of the previously granted temporary waiver of the requirement to maintain the Station's online public inspection file on the FCC's website. In an Order released on April 24, 2018, the FCC granted a sixty-day waiver to allow Nicwild and several other parties additional time to comply with the online public inspection file requirement. However, Nicwild continues to experience undue hardship because the two persons who are responsible for completing the online public inspection file are severely ill, one with renal failure and the other with a urological disorder.

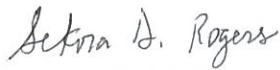

Under certain circumstances, the Commission will waive the online public inspection file requirement for licensees. In the 2016 Report and Order which expanded the online public inspection file requirement to broadcast radio licensees, the Commission stated:

If an entity believes that the transition to the online file will impose an undue hardship, it may seek a waiver of the requirements adopted in this order. An entity seeking a waiver should provide the Commission with information documenting the economic hardship the station would incur in complying with online file requirements, its technical inability to do so, or such other reasons as would warrant waiver under our general waiver standards . . . The Commission also will be favorably inclined to grant requests for additional time to commence online filing from very small radio stations with fewer than five full-time employees, as these

stations may have limited resources and, therefore, find the transition to the online file particularly challenging.¹

Nicwild qualifies under this standard. The Station has fewer than five employees, and the two persons responsible for maintaining the file are severely ill. For this reason, compliance with the online public inspection file requirement is particularly challenging. Due to these special circumstances, we are requesting a sixty-day extension of the previously granted waiver.

Respectfully submitted,

Matthew H. McCormick

Sekoia D. Rogers

Counsel to Nicwild Communications, Inc.
