**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

The consumer need competition in Internet providers to get the advance and technology delivered to him faster so many years there were only a few providers who would offer the same service at a price which was equal from available providers, no competition , no benefit to consumer. Now there are more providers are available the prices got lower the service got better the big company cannot provide the service to small communities.this is the ver the small companies prosper and delivered service which is not available from the big companies Please keep competition alive dont let monopolies like AT&T and Verizon put the benefits which consumer gets from the smaller providers.
