**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to  
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I urge you not to entertain the petition from US Telecom to dismantle key components of the 1996 Telecommunications Act. I currently use Sonic as my internet provider, and truly appreciate the service they provide. I was wholly dissatisfied with the service and cost that I was provided by both AT&T and Comcast, and this petition to dismantle the framework that they put in place but no longer use is simply an attempt to stamp out smaller Internet Service providers that are competing with them. The service and prices that Sonic offers are fantastic, and instead of US Telecom snuffing out the competition, they should manage their business accordingly, and actually compete with what Sonic is offering instead of using their resources to shut down competition. Please show customers that your main focus as the FCC is to side with the needs of the people, not to side with monolithic corporations because of their lobbying power.

Thanks,

Jason French
