If the rate does not begin to appear on the next bill date, when it does appear back credit will be given. This \$25,000 shall be included as part of the \$250,000 maximum total funding available under this section during the year in which the evaluation occurs.

PSC 160.08 Telecommunications customer assistance program.

The commission may authorize individual telecommunications providers to establish telecommunications customer assistance programs that meet authorized goals and objectives for increasing or stabilizing subscription levels for non-optional, essential telephone service within its service territory or to address avoidance of disconnection or limitation of service to low-income households with payment problems. Such programs may allow a provider to not make available certain essential services, as defined in s. PSC 160.03(2), in order to preserve at least minimal telephone service to certain low-income households with payment problems. The commission shall determine on a case-by-case basis whether or not a telecommunications customer assistance program may receive universal service fund monies.
