Re: *Advanced Methods to Target and Eliminate Unlawful Robocalls*, CG Docket No. 17-59

Dear Ms. Dortch:

On June 22, 2018, Jack Hansen, Jimmie Joaquin, and the undersigned of Frontier Communications Corporation ("Frontier") met by phone with Eric Burger, Sherwin Siy, Heather Hendrickson, Jerusha Burnett, Ken Carlberg, William Hupp, and Mason Shefa to discuss Frontier's efforts to target robocalls, particularly with respect to the SHAKEN/STIR standards.

Frontier described the tools it has deployed to empower its customers to better control what calls do and do not ring on their phones. Frontier then reviewed both the company's and the industry's implementation and further development of the SHAKEN/STIR standard. Frontier explained that it had already tested one SHAKEN/STIR solution and that it continues to evaluate the best strategy and roadmap to target and reduce robocalls in a way that makes sense for its customers as it moves forward with its network plans. Please contact the undersigned if you have any questions.

Sincerely,

/s/ AJ Burton
