**RE: WC Docket No. 19-135; RENEWAL of SECTION 63.63 APPLICATION of AT&T**

Dear Ms. Dortch:

AT&T Services, Inc. on behalf of its affiliates AT&T Corp., BellSouth Long Distance, Inc., BellSouth Telecommunications, LLC, SBC Long Distance, and Teleport Communications America, LLC, collectively referenced herein as "AT&T", collectively referenced herein as "AT&T" filed a Section 63.63 application in the above-referenced docket on May 7, 2019 seeking emergency authorization under Section 214(a) of the Communications Act, as amended ("the Act"), 47 U.S.C. § 214, to suspend AT&T's wireline interstate telecommunications services after the Beauregard-Smiths Station tornado landed in eastern Alabama causing significant damage to AT&T's facilities.

AT&T continues to make progress on the restoration of service to its customers in the distribution area (DA) that was affected by this storm. However, AT&T has not restored service to all customers due to the processes necessary to complete the fiber placement. AT&T estimates that its restoral work will be complete in July and services will be restored to all customers in the DA by July 31, 2019. Accordingly, AT&T requests an extension of the emergency discontinuance authorization until July 31, 2019.

Best regards,

A handwritten signature in black ink, appearing to read "Terri L. Hoskins", written over a light blue horizontal line.

Terri L. Hoskins
