Federal Communications Commission

In the matter of Request for Review by Pelican Communications, Inc. of Decision of Universal Service Administration Filer 499 ID: 812887 2014 Revenue FCC Form 499-A Telecommunication Reporting Worksheet

Pelican Communications, Inc. is a payphone provider. An annual 499-A worksheet is filed every year with all filing representing 10% interstate revenue. The 2014 revenue was erroneously filed at 100% interstate revenue. A corrected 2015 499-A was filed, but rejected due to being approximately 2 weeks late. All subsequent filings have been filed correctly. Pelican Communications, Inc. is asking for review of the corrected report and relief of the estimated 499A Contribution that has been billed the Company.

As of June 11, 2019 USAC recommended Pelican Communications, Inc. submit a request to accept an out of period revision for the 2014 499-A revenue reporting.
