**Re: In the Matter of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

One of the key functions of government in a capitalist system is to support competition by preventing larger firms from blocking smaller firms from entering the market. That is exactly the problem that is currently happening in the telecommunication industry today. Please fight to allow smaller telecoms to have a chance to compete with the larger players to keep prices low and increase choices for consumers. I was very unhappy with my service from a large telecom and was much happier when I switched to a smaller firm which worked much harder to keep my business.
