Response to Lines 500-510 - Service Quality Standards and Consumer Protection Rules

Compliance

In establishing this certification in its *2005 ETC Order*,¹ the FCC found that an ETC must make “a specific commitment to objective measures to protect consumers.”² The FCC found that for wireless ETCs, compliance with CTIA’s Consumer Code for Wireless Service would satisfy this requirement” and that the sufficiency of other commitments would be considered on a case-by-case basis.³ In this context, the FCC stated, “to the extent a wireline or wireless ETC applicant is subject to consumer protection obligations under state law, compliance with such laws may meet our requirement.”⁴

Madison County Telephone Company, Inc. (“Company”) hereby certifies that it complies with applicable service quality standards and consumer protection rules established by the Arkansas Public Service Commission and detailed in the Telecommunication Provider Rules. Specifically, sections 1.09, 1.10, 1.11, 1.12, and 2.0 address the following obligations which include, but are not limited to: 1.09 Service Availability, 1.10 Safe and Adequate Service, 1.11 Construction Standards, 1.12 Facility Identification and Section 2.0, which details consumer billing rules and regulations. Furthermore, Company is subject to cyclical compliance reviews by

¹ *Federal-State Joint Board on Universal Service*, CC Docket No. 96-45, Report and Order, FCC 05-46 (rel. Mar. 17, 2005) (“*2005 ETC Order*”).

² *Id.* at para. 28.

³ *Id.* The FCC noted that under the CTIA Consumer Code, wireless carriers agree to: “(1) disclose rates and terms of service to customers; (2) make available maps showing where service is generally available; (3) provide contract terms to customers and confirm changes in service; (4) allow a trial period for new service; (5) provide specific disclosures in advertising; (6) separately identify carrier charges from taxes on billing statements; (7) provide customers the right to terminate service for changes to contract terms; (8) provide ready access to customer service; (9) promptly respond to consumer inquiries and complaints received from government agencies; and (10) abide by policies for protection of consumer privacy.” *Id.* at n. 71.

⁴ *Id.* at n. 72.

the Arkansas Public Service Commission Telecommunications Utilities and Quality of Service Section.

In addition, the Company complies with numerous federal consumer protection standards including, but not limited to: (1) Truth-in-Billing Rules outlined in 47 CFR § 64.2401; and (2) compliance with Federal CPNI rules, Red Flag Rules and other applicable federal and state requirements governing the protection of customers' privacy.

Furthermore, Madison County Telephone Company, Inc. hereby certifies it will apply the same service quality standards that it currently applies to Voice service to Broadband services also, as is applicable to 47CFR 54.313.(a)(5)

Madison County Telephone Company, Inc.**Response to Lines 600-610 - Ability to Function in Emergency Situations**

Madison County Telephone Company, Inc. (“Company”) hereby certifies that it is able to function in emergency situations as set forth in the Code of Federal Regulations, Title 47, Part 54, Subpart C, §54.202(a)(2)¹ and the Arkansas Public Service Commission Telecommunication Provider Rules. The Company’s network is designed to remain functional in emergency situations without an external power source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations as required by Section 54.202(a)(2). The Company can change call routing translations as needed to reroute traffic around damaged facilities. Changing call routing translations also allows the Company to manage traffic spikes throughout its network, as emergency situations require.

Specifically, the Company is able to function under emergency operations in accordance with Arkansas Service Commission Telecommunication Rules *§8 General Service Standards, §10 Maintenance, and §11 Quality Standards* which include obligations for continuity of service and emergency operations planning and service provision capability for dominant carriers. Any central office without a permanently installed emergency power system shall be wired to permit connection of a mobile emergency power unit, and there shall be a mobile emergency power unit available for connection on short notice with minimum travel time. Furthermore in section *11.06.B*, each central office shall be equipped with a battery reserve sufficient to sustain operation until emergency power can be connected.
