Dear Ms. Dortch:

In its May 27, 2016 filing in this proceeding, Leica Geosystems Inc. identified concerns with respect to the Commission's possible grant of Ligado's license modification applications. We are pleased to report that after considerable discussion, NovAtel, the supplier of GNSS components to Leica Geosystems Inc., reached a co-existence agreement. On the basis of this understanding, Leica Geosystems Inc. supports the Commission's granting of the modification applications.

Thank you for considering these views.

Respectfully submitted,
