Federal Communications Commission
Office of the Secretary

The Missouri SHPO office has reviewed the revised colocation PA. I was not able to figure out how to file my comment online so I thought I would try emailing you. After reviewing the document, our primary concern relates to stipulation IV.A and the exemption of colocations inside buildings not listed or eligible for the NR regardless of age. I think it is explained a bit better in the release outlining the changes to the agreement. The language of this section could be strengthened to clarify that it is interior colocations only and that exterior colocations on buildings that are over 45 years old are still subject to 106. That bit is so unclear that I am not 100% clear that I have that written correctly.

Thank you for your help with sharing our thoughts and looking out for the interest of SHPOs.
