Northeast Rural Services, Inc.

Certification of Compliance with Applicable Service Quality Standards and Consumer Protection Rules

Oklahoma Administrative Code, Title 165, Chapter 55 – Telecommunications, requires an ETC to comply with the requirements of this Chapter.

The Company certifies that it complies with the applicable requirements which include billing disputes, service standards, supported services, installation intervals and customer complaints.

The Company also certifies that it provides adequate and efficient service to every served end-user for which the ETC receives universal service. It, also, certifies that it shall install and maintain its system so as to render safe, efficient, and continuous service, and shall keep of its equipment and facilities in a good state of repair.

In addition, the Company has a process in place for protecting the privacy of customer information.

Northeast Rural Services, Inc.

Functionality in Emergency Situations

Oklahoma Code 165:55-113-22 (Emergencies) and -23 (Adequacy of Service) states that the provider shall ensure that there is a sufficient operating force and, where appropriate, sufficient equipment to serve its end-users. The provider shall make adequate provision for emergencies in order to prevent interruption of continuous telecommunication service throughout the area it serves. Central office(s) shall have an emergency power source, either on the premises or available on short notice.

Following is how the company complies with the codes:

Back-Up Power

All of the Company's core equipment is stored in a datacenter with redundant power, cooling, UPS's, and generators. Its remote POP sites have backup battery with run times long enough to deliver portable generators in the event of a power outage in a remote POP. The datacenter currently has a three hour run time on batteries. The generators should turn on in the event of any major power loss and has enough onsite diesel for multiple days of run time.

Rerouting of Traffic around Damaged Facilities

Each remote pop site has redundant fiber feeds in a ring configuration in the event of a fiber cut. The traffic for both voice and broadband will be routed to the un-damaged fiber/infrastructure. The core routers are also being fed by redundant feeds from separate providers from different locations.

Traffic Spikes

The Company has plenty of capacity for major traffic spikes. It currently has double the capacity needed to provide services to our current customer base.

BOLT Internet

With BOLT Internet service, you can enjoy the Internet like never before! Thanks to our full fiber optic connection, you get faster, more reliable Internet speeds other area providers can't deliver. Plus, you save more money per Megabit with BOLT compared to what other providers in your area charge.

Advantages of Bolt's Full Fiber Optic Connection

GREAT FOR RURAL AREAS

Signals travel longer distances, without weakening

WEATHERPROOF

It's resistant to lightning and not easily affected by weather

FUTURE-PROOF

When there is a technology upgrade, the cable stays put, only the equipment changes

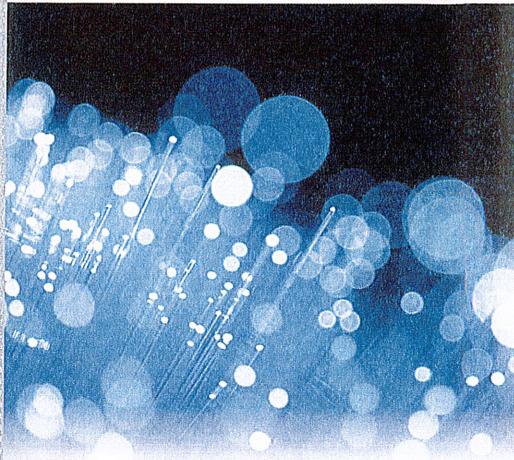

DURABLE

Does not corrode like copper does

COMPETITIVE RATES

Less equipment required means lower costs and less maintenance

Enjoy one of the nation's highest quality and fastest Internet, TV and phone service with Gigabit technology never before offered in the state of Oklahoma!

BOLT PHONE SERVICE

Improved phone service with crystal clear call quality! Bolt's Voice Over Internet Protocol Phone service lets you enjoy phone conversations without losing any of the features you currently enjoy including Call Waiting and Caller ID.

THE BIG DIFFERENCE

What makes Bolt unique is our ability to bring fiber optic cable directly to your house.

Because we provide a full fiber optic connection, versus a fiber to copper connection, your signal will be stronger, even during times of bad weather.

Bolt Fiber Optic Service isn't some faceless corporation. As a subsidiary service of Northeast Oklahoma Electric Cooperative, we are your neighbors and your friends. We have always been committed to providing high quality service to our community, because we care about what is important to you. Subscribing to Bolt gives you more than just great service, it gives you part ownership through your cooperative membership, so you can be proud to say your money stays local.

ACT NOW

Construction is underway. For a limited time, we are offering you a risk-free, reduced installation fee of just \$100. This is a minimum of \$150 savings! This fee is fully refundable if you decide not to take advantage of this new technology, right up until it's time to install to your home.

BOLT FIBER OPTIC SERVICES

Use this payment form to take advantage of a greatly reduced installation fee. Call a helpful service representative at 1-800-256-6405 to learn more.
