**Re: Notice of *Ex Parte*, PS Docket No. 07-114 and PS Docket No. 18-261**

Dear Ms. Dortch,

Pursuant to Section 1.1206 of the Commission's rules, 47 C.F.R. § 1.1206, this letter provides notice that on July 1, 2019, Charles H. Simon, Jr., CEO and Founder, Precision Broadband LLC ("Precision Broadband"), spoke by phone with Will Adams, Legal Advisor to Commissioner Brendan Carr.

During this call, we discussed the points made in our filed comments and reply comments to PS Docket No. 07-114.<sup>1</sup> I explained the importance of facilities-based Internet Service Providers (ISPs) to 911 location services, although the NEAD is not the correct vehicle for the ISPs to participate. With 100 million households (83% of US HHs) having broadband service today, broadband should be considered a "lifeline service", critical to public safety. We shared that the ISP-based Fixed Broadband 911 system proposed by Precision Broadband would provide wide coverage for horizontal and vertical dispatchable location and that the ISPs would have the data to support such a system.

Lastly, we discussed the challenge of instituting a new proceeding for expanding the sources of dispatchable location information as was recommended in our Reply Comments. Precision Broadband only recommends such a new proceeding if the current proceedings (PS 07-114 and PS 18-261) could not be expanded to accommodate other sources of location information, including from ISPs.

If you have questions or need additional information, please contact me anytime.

Respectfully submitted,

Charles H. Simon, Jr.

cc: Will Adams (via email)
