<040> **Has the information required pursuant to §54.1009 been provided with a Form 481 filing (Y/N)** <040> ☒ ☐

<041> Attach a description of the documents filed with the Form 481 reporting <041>

<042> Cite the Study Area Code (SAC) for the Form 481 reporting <042>

<080> **Tribal Lands Reporting (y/n?)** (Does this study area cover tribal lands? Yes or No) ☐ ☒

**Notice to Individuals Required by the Paperwork Reduction Act of 1995**

OMB Control Number 3060-1185 (Annual Report for Mobility Fund Phase I Support, FCC Form 690 and Record Retention Requirements)

Notice to Individuals Required by the Paperwork Reduction Act of 1995

Public reporting burden for this collection of information is estimated to average 18 hours per response. Our estimate includes the time to read the instructions, look through existing records, gather and maintain required data, and actually complete and review the form or response. If you have any comments on this estimate, or on how we can improve the collection and reduce the burden it causes you, please write the Federal Communications Commission, Office of Managing Director, AMD-PERM, Washington, DC 20554, Paperwork Reduction Act Project (3060-1185). Please DO NOT SEND COMPLETED FORMS TO THIS ADDRESS. You are not required to respond to a collection of information sponsored by the Federal government, and the government may not conduct or sponsor this collection, unless it displays a currently valid OMB control number and/or we fail to provide you with this notice. This collection has been assigned an OMB control number of 3060-1185.

THIS NOTICE IS REQUIRED BY THE PAPERWORK REDUCTION ACT OF 1995, PUBLIC LAW 104-13, OCTOBER 1, 1995, 44 U.S.C. SECTION 3507.

**040****Description of Documents Filed With FCC Form 481**

FCC Form 690 Line 040 asks “Has the information required pursuant to §54.1009 been provided with a Form 481 filing (Y/N)?” and provides for including a description of the documents filed with the Form 481 report. The annual reporting requirements applicable to Mobility Fund recipients is based upon 47 C.F.R. § 54.1009, whereas the annual reporting requirements applicable to other high cost support recipients and Lifeline providers is based upon 47 C.F.R. §§ 54.313 and 54.422. The only common annual reporting requirements between Mobility Fund recipients and other high cost recipients/Lifeline providers is (i) the urban rate comparability certification and (ii) the tribal lands reporting.

In this FCC Form 690 annual report, T-Mobile includes its Urban Rate Comparability Certification (070), and there are no Tribal Lands within T-Mobile’s Mobility Fund service area. Nevertheless, T-Mobile is submitting FCC Form 481 for its Mobility Fund service area addressing the applicable reporting requirements, including the Terms and Conditions of Lifeline service being provided within its Mobility Fund service area. The Terms and Conditions of Lifeline service document includes a description of the rates, terms and conditions of Lifeline service available to qualified low-income consumers within T-Mobile’s Mobility Fund service area.

## **PROJECT DESCRIPTION – CONSTRUCTION SCHEDULE**

T-Mobile Northeast, LLC (“T-Mobile” or “Company”) provides the following Project Description – Construction Schedule for Census Tract T42103950201 for deploying 4G Long-Term Evolution (“LTE”) service in this census tract.

### **I. Project Description**

T-Mobile will use Mobility Fund Phase I support received for Census Tract T42103950201 to construct new wireless facilities and operate and maintain these facilities to provide 4G LTE wireless service to the unserved road miles in this census tract. The Company completed the build out of 4G LTE service in April 2016, within three years after being authorized to receive mobility fund support for Census Tract T42103950201, consistent with 47 C.F.R. § 54.1005(b). T-Mobile deployed 4G LTE services by building new cell sites either collocated on existing towers or newly constructed towers. T-Mobile validated coverage using a combination of industry standard computer modeling and drive testing.

### **II. Network Specifications and Feasibility**

T-Mobile is a well-established, national facilities-based 4G LTE wireless service provider in the United States. This project to deploy new wireless facilities to provide 4G LTE service in unserved areas in Census Tract T42103950201 is well within the technical capability of the Company.

The Company will use Personal Communications Service (“PCS”) spectrum at 1900 MHz or Advanced Wireless Services (“AWS”) spectrum at 1.7/2.1 GHz to provide 4G LTE service in

Census Tract T42103950201. Moreover, having acquired spectrum licenses in the 700MHz range, this spectrum may also be used to provide coverage within the Census Tract. The Company will meet all of its public interest obligations, including the roaming and collocation requirements under the Mobility Fund rules. The use of 4G LTE technology will enable the Company to meet or exceed the threshold data transmission rates of 200 Kbps uplink and 768 Kbps downlink for 4G services.

Preliminary computer modeling of the radio frequency ("RF") design for providing 4G LTE service in unserved areas of Census Tract T42103950201 indicated that the Company will need to deploy several new cell sites in this census tract and surrounding areas. Connectivity to T-Mobile's nationwide network will be provided through either new or existing backhaul facilities using either copper, fiber, or microwave connections. All newly-constructed sites will be connected to, and integrated with, T-Mobile's existing network and switching infrastructure in Pennsylvania.

A number of challenges have been presented in constructing a network in this area, including the acquisition and construction of the required new sites and the related zoning, construction, and backhaul issues. However, T-Mobile has overcome these challenges and completed construction in April 2016.

### **III. Project Budget and Disbursements**

T-Mobile was authorized to receive \$1,772,095 in Mobility Fund support for expenditures related to the construction, operation and maintenance of service in Census Tract T42103950201. This project is divided into five phases: (1) network design; (2) site acquisition;

(3) pre-construction; (4) construction; and (5) drive testing/site integration and deployment.<sup>1</sup>

T-Mobile has completed these five phases of construction for 4G LTE service in Census Tract T42103950201 and now enters the operation and maintenance phase for 4G service in this Census Tract.

#### **IV. Maintenance**

Having completed construction of the network in the Tract, T-Mobile has now entered the maintenance phase of its construction and has undertaken initial efforts to maintain the service it extended covering the previously unserved areas including routine maintenance procedures, validating network accessibility, load balancing and other things to optimize performance. T-Mobile will continue these efforts and maintain the network as appropriate.

#### **V. Project Plan and Budget Status**

T-Mobile has, and will continue to, use universal service support for its winning bid in the Tract to construct, operate and maintain new wireless facilities to provide service in unserved areas. The overall project plan for serving the Tract was to integrate new network facilities and coverage into T-Mobile's national network that served the residents of and visitors to the Tract. T-Mobile was able to accomplish this objective, which has allowed residents of and visitors to the Tract to realize the benefits of access to T-Mobile's nationwide network.

Overall, T-Mobile was able to complete construction and commence operations under the

<sup>1</sup> The *Mobility Fund Winning Bid Public Notice* also identifies "maintenance" as a phase of the project. T-Mobile anticipates that maintenance activities will take place throughout all phases of the project, as well as beyond the initial construction and deployment phase.

Project Plan within budget. The budget for construction and operation of 4G service in the Tract was based, at least in part, on the availability of Mobility Fund support. In addition to initial construction costs, T-Mobile has and will incur on-going operational costs, maintenance costs, and other costs associated with the operation of network facilities in the Tract. T-Mobile was approved for Mobility Fund support for the Tract in the amount of \$1,772,094.50, ; The Company completed its buildout of network facilities covering 75.14% of the road miles in the Tract, enabling T-Mobile to receive support consistent with its coverage totaling \$1,331,556.04.

**T-Mobile West, LLC (“T-Mobile”)  
2018 Mobility Fund Annual Report  
Study Area Code: 178010**

Pursuant to 47 C.F.R. § 54.1009(a), winning bidders authorized to receive Mobility Fund Phase I support are required to submit an annual report, which shall include the following, or reference the inclusion of the following in other reports filed with the Commission for the applicable year:

(1) Electronic Shapefiles site coverage plots illustrating the area newly reached by mobile services at a minimum scale of 1:240,000;

(2) A list of relevant census blocks previously deemed unserved, with road miles and total resident population and resident population residing in areas newly reached by mobile services (based on Census Bureau data and estimates);

(3) If any such testing has been conducted, data received or used from drive tests, or scattered site testing in areas where drive tests are not feasible, analyzing network coverage for mobile services in the area for which support was received;

(4) Certification that the applicant offers service in supported areas at rates that are within a reasonable range of rates for similar service plans offered by mobile wireless providers in urban areas;

(5) Any applicable certifications and showings required in §54.1004; and

(6) Updates to the information provided in §54.1005(b)(2)(v).

With respect to the information required under Sections 54.1009(a)(1) and 54.1009(a)(3), T-Mobile includes, by reference, in this Annual Report, the coverage plots and drive testing data previously filed in its 2016 Mobility Fund Annual Report with the Universal Service Administrative Company and Federal Communications Commission. This previously filed information is incorporated herein by reference, as provided for in 47 C.F.R. § 54.1009(a).
