**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I have switched away from ATT and went with their competitor because of their unethical practice and predatory pricing. After I switched, to my surprise, my bill actually went down almost 50% for a faster service. I was getting 5-10 Mbit internet transmission with ATT before my switch to fiber and receiving almost 1Gbit transmission speed at a much lower cost. If ATT or any of the big telecom companies have no competition, I can expect the cost of my service to go back up or even quadruple of what I was paying before my switch and with a lower quality of service.

Internet is now a part of my life and my business. I am just a small business owner. If any of my cost goes up, I'll have to pass that cost to my customer and in turn drive up the cost for everybody else.

I sincerely request that FCC to maintain a competitive market and allow the competition to keep the cost down while enhancing the service. Thank you.
