**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Competition is what makes this Country great. If someone creates a better product, they should be rewarded, not punished.

Internet and telecommunications are now a necessity, and people should not be forced to choose between one or two providers. As a necessity, it is unfair to keep raising rates that will divide the have and have not's even further.

Since my work and home life have melded into one, using a fiber connection keeps me in business. Please do not take that away.
