On December 7, 2017, I filed a Petition for Rulemaking titled “RACES amateur radio DATA special permanent authorization”. It was meant to address various problems and delays in 16-239. Now that the FCC appears poised to act to resolve RM-11708, 16-239, RM-11831, and other related actions, this measure, or any STA (Special Temporary Authorizations) no longer appear necessary.

By this letter, the I respectfully request to withdraw without prejudice the above-referenced Petition.

Please direct any questions to me at the above address.
