Re: Transforming the 2.5 GHz Band, WT Docket No. 18-120

Dear Ms. Dortch:

Verizon supports the Commission's efforts to facilitate more efficient and effective use of spectrum in the 2.5 GHz band. To that end, we support AT&T's recent suggestion to increase transparency in the band by making EBS lease terms and existing and planned deployments available to all auction participants.¹ Under the unique circumstances and eligibility restrictions associated with the 2.5 GHz band, doing so would reduce the comparative information advantage enjoyed by current licensees and lessees and lead to a more competitive auction process.

Pursuant to Section 1.1206 of the Commission's rules, a copy of this letter is being filed electronically in the above-referenced docket. Should you have any questions, please contact the undersigned.

Sincerely,

A handwritten signature in black ink, appearing to read "Tamara Preiss".

Tamara Preiss

¹ Letter from Brian J. Benison, AT&T, to Marlene Dortch, FCC, WT Docket No. 18-120 (June 28, 2019).
