

## Comments

As the owner of KADI 99.5 Fm in Republic , MO, we would very much appreciate the opportunity to increase our power.

For many years we have lost out on opportunities because we are the lowest power FM station in the overall market that we serve.

With increased competition from many outside sources, not to mention more powerful stations in the area, it has made it all the more difficult to succeed.

Please give strong consideration to this C 4 proposal. It would really allow us to serve our community in a greater way.
