Line 610 Functionality in Emergency Situations Description

Oregon-Idaho Utilities, Inc. has engineered our communications network to remain functional in emergency situations as required by applicable state and federal regulations. Main Central office sites have emergency power generators that run automatically in the event of a commercial power loss. In addition, these sites have battery backup which will allow them to remain functional in the event of a loss of generator power. Second tier remote switch sites and remote concentrator sites have battery backup to continue operation in the event of a commercial power loss and the company has an inventory of portable generators which can be manually deployed to remain operational during extended commercial power loss events. Our class 5 switch and second tier remote sites have emergency stand alone capabilities to continue operation during an isolation event. All main switch, second tier remote switch, and remote concentrator sites have redundant transport paths allowing them to re-route traffic in the event of an emergency.

All switching, concentrator and transport equipment have redundant critical systems to continue operation during an internal card failure. We maintain a Rural Utilities Service recommended standard set of spare cards and parts in house for all mission critical systems. Routine maintenance is conducted on all mission critical systems. OIU also has an automated alarm monitor system in place that alerts company personnel of system malfunctions 24 hours a day, 7 days per week, 365 days per year. Our network was engineered to exceed generally accepted traffic handling standards within the industry to assure continued operation during traffic spikes and during busy hour and busy day events.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors
Oregon-Idaho Utilities, Inc.
Nampa, Idaho

We have audited the accompanying financial statements of Oregon-Idaho Utilities, Inc. (the Company, an Oregon corporation) which comprise the balance sheets as of December 31, 2016 and 2015, and the related statements of operations, changes in stockholder's equity, and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Oregon-Idaho Utilities, Inc. at December 31, 2016 and 2015, and the results of its operations and cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued a report dated March 8, 2017 on our consideration of Oregon-Idaho Utilities, Inc.'s internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Oregon-Idaho Utilities, Inc.'s internal control over financial reporting and compliance.
