RE: Supplement (WC Docket No. 17-170)
Global Connection Inc. of America and Tele Circuit Network Corporation
Application for Consent to Transfer Assets

Dear Ms. Dortch:

At the request of Commission Staff, we hereby supplement the above-referenced Application for Consent to Transfer Assets, in which Global Connection Inc. of America (“Global Connection”) and Tele Circuit Network Corporation (“Tele Circuit”) request authority to transfer certain wireline customers from Global Connection to Tele Circuit (the “Application for Transfer of Customers”), by providing the following statements for the record:

- The owner of Tele Circuit, Ashar Syed, is a United States citizen.
- Global Connection has a Joint Domestic and International Application for Transfer of Control of Global Connection Inc. of America to Odin Mobile, LLC (the “Transfer of Control Application”) pending before the Commission (WC Docket No. 17-54; ITC-T/C-20170222-00021). The Transfer of Control Application is only related to Application for Transfer of Customers in that both applications involve Global Connection; the Application for Transfer of Customers is otherwise unrelated to and unaffected by the Transfer of Control Application. The transfer of wireline customers is a business decision, independent of the proposed transfer of control, that will allow Global Connection to focus its resources on its wireless operations for the immediate future.

Ms. Marlene Dortch
